PPS-VCT

VELCRO CABLE TIDY

PPS-VCT is a polyester multifilament cable tidy system that uses a nylon velcro fixing method to secure and protect wires and cables in a multitude of industrial and commercial applications. The special construction of this product makes it easy to install, and also allows for easy removal and re-direction of cables. Although primarily designed for use on carpets, PPS-VCT can also be used in vehicles, aero planes and trains.

TECHNICAL DATA

VELCRO CABLE TIDY

Material	Polyester Multifilament
Operating Temperature	-50°C to 150°C
Flammability	UL VW-1
Dielectric Strength	20 KV/mm
Cutting Method	Hot Knife or Scissors
