SPECIALISTS IN HEAT SHRINK TUBING AND CABLE HARNESSING PRODUCTS

## PRO120-K

### CORDLESS BUTANE SOLDERING IRON AND HOT KNIFE CUTTER

The PRO120-K professional quality, butane gas powered soldering iron has a variable heat control equivalent to 125W and auto-ignition removing the need for flints. This lightweight and portable iron can hold enough fuel for up to 200 minutes of operation and is easy to refill. This high quality, top of the range PRO120-K auto-ignition tool and cap is supplied with three extra tips as standard, a cored solder and cleaning sponge. All packed in a tough polypropylene carrying case.

With the addition of the PS-09 hot knife tip (included), this soldering iron can be used as a robust and reliable hot knife cutter that is ideal for cutting and sealing braided sleeving products, ropes and cords, nylons, synthetics, webbings and elastics.

### APPLICATIONS

- Hot knife cutting.
- Shrinking heat shrink tubing.
- Soldering circuit boards.
- Automotive and truck repairs.
- Aviation service and repair.
- Electrical components.
- Environmental splicing.
- Loosen rusted nuts and bolts.
- Maintain switch panels.
- Repair television sets, meters and switch boards.
- Sensitive IC boards.
- TV cable systems.
