

PPS-NRW

Noise Reduction Wrap

PPS-NRW noise reduction braided wrap is a woven polyester monofilament and polyester multifilament. The special structure offers excellent noise reduction, and the side-entry design makes it easy to install, remove and reuse for wire harnesses or cables. It is of particular use where these harnesses are being installed in difficult to reach areas such as door panels or dashboards.

Features & Benefits

- Provides Excellent Noise Reduction.
- Tough durable protection.
- Side entry design aids installation & re-use.
- Flame retardant to VW-1.

Applications

- Wire Harnesses & cable assemblies.
- Used to provide noise reduction in automotive & mass transit applications.
- Easy installation and reuse in door panels and dashboards.

General Information	
Material	Polyester multifilament Polyester Monofilament
Operating temperature	-50°C to +150°C
Flammability	UL VW-1
Standard Colour	Black
Cutting method	Hot Knife
Specifications	UL VW-1 RoHS

Available Colour-*

BLACK

Ordering Description	ID (D)mm	Overlap (%)	Maximum Bundle Dia.mm
PPS-NRW-005	5		6
PPS-NRW-009	9		10
PPS-NRW-013	13	25%	14
PPS-NRW-019	19		20
PPS-NRW-025	25		26
PPS-NRW-032	32		33
